

AC-DC BATTERY CHARGER

- ▶ 120~230W *Portable Battery Charger*
- ▶ 300~1000W *Stationary Battery Charger*

DC-AC POWER INVERTER

- ▶ 500W *Stand-alone Solar Inverter*
- ▶ 100~2500W *Modified Sine Wave*
- ▶ 200~3000W *True Sine Wave*
- ▶ 1500~3000W *True Sine Wave with Solar Charger*

Total Solution For

Power Inverter & Battery Charger

About MEAN WELL

Established in 1982, MEAN WELL is a leading manufacturer of standard switching power supplies. In response to the world's energy-saving trend, we've come up with a green power solution that include DC/AC inverters, solar inverters, and battery chargers to fulfill the alternative energy requirements in the market. Those products are highly efficient, save energy, low power consumption and approved by global safety/EMC certificates per TUV, UL and CE, which greatly guarantee your safety for all-purpose solar power applications and any charging system, such as electric scooter, electric bicycle, electric wheelchair...etc.

Backed by 30 years' experience, we have over 4,500 products that allow us to provide "one stop shopping" to our customers. Every product in the MEAN WELL range is the result of rigid procedures governing design, design verification test (DVT), design quality test (DQT), component selection, pilot-run production, and mass production. With our network of over 150 distributors in over 70 countries globally, your order can be delivered within 24 hours. No minimum order required. To source from a trusted industry supplier, contact us today!

120~230W Portable Battery Charger

Features

- Universal AC input / Full range
- AC input range selectable by switch (PB-120)
- No load power consumption < 0.5W (GC-120)
- No load power consumption < 1W (GC 160/220)
- High efficiency up to 94%
- Built-in active PFC function, PF > 0.9 (GC series)
- Built-in passive PFC function (PB-120)
- Fully enclosed plastic case (GC series)
- 3 pole AC inlet IEC320-C14
- Class I power (with earth pin)
- Cooling by free air convection (GC series)

- Cooling by built-in DC fan (PB-120/230)
- Built-in ON/OFF power switch (PB-120/230)
- Built-in remote ON/OFF control (PB-230)
- Protections:
Short circuit / Over voltage / Over temperature / Reverse polarity (PB-120/230)
- LED indicator for charging status
- Especially suitable for portable usage
- Charger for Lead-Acid, Li-Ion, Gel cell batteries
- 2 years warranty

Model Name	GC120	GC160	GC220	P□-120 □=A: pulse charge B: 2 section voltage charge	PB-230
AC input voltage range	85~264VAC		90~264VAC	88~132VAC / 176~264VAC selectable by switch	90~264VAC

Stationary Battery Charger

Features

- Universal AC input / Full range (PB-600/1000)
- AC input range selectable by switch (PB-300/360)
- Built-in passive PFC function (PB-300P/360P)
- Built-in active PFC function (PB-600/1000)
- 3 poles AC inlet IEC320-C14
- Cooling by built-in DC fan (except for PB-300)
- Built-in ON/OFF power switch
- Built-in remote ON/OFF control
- 2/3/8 stage smart charger for PB-600/1000
- Protections:
 - Short circuit / Over voltage / Over temperature / Reverse polarity
- LED indicator for charging status
- 3 years warranty

Please refer to www.meanwell.com for detail spec.

500W Stand-alone Solar Inverter

Features

- DC/AC modified sine wave output
- Built-in 500W MPPT solar charger, MPPT efficiency: 98% (Typ.)
- High surge power up to 1000W
- High frequency design
- High efficiency up to 88%
- 2 years warranty
- Protections:
 - Battery low alarm / Battery low shutdown /
 - Overload / Over temperature / Output short /
 - Input reverse polarity
- Modified models available:
 - 100/115/120VAC or 200/220/240VAC

Please refer to www.meanwell.com for detail spec.

205x 158x 67 mm

Output power		500W (rated power); 1000W (surge power)
DC input rated voltage		12VDC, 24VDC or 48VDC
AC onput voltage range/Frequency		110VAC/60Hz or 230VAC/50Hz
AC output waveform		Modified sine wave
AC output regulation		±10%
No load dissipation (typ.)		≤9.6W
Working temperature		-20~+60°C (refer to output derating curve)
Solar Panel	Input voltage range	20~40V, 35~80V or 70~160V
	Max. short circuit current	15A (7.5A for 48VDC input)
	Rated charger power	500W (350W for 12VDC input)
Safety standards		Compliance to EN60950-1(LVD)
EMC standards		Compliance to FCC part 15 class A, EN55022 class A, EN61000-4-2,3,8

100~2500W Modified Sine Wave

Features

- High frequency design
- Input protections:
Reverse polarity / Over and under voltage / Battery low alarm and shutdown
- Output protections: Short circuit / Overload / Over temp.
- With power ON/OFF switch and LED indicator
- Built-in remote ON/OFF control for 1000~2500W (optional)
- Built-in USB interface and without fan for 100W
- Input and output fully isolation
- Low power consumption (standby)
- LVD meet EN60950-1 and e13 mark
- EMC meet EN61000-4-2,3, EN55022
- 1 year warranty

200~700W True Sine Wave

Features

Please refer to www.meanwell.com for detail spec.

- True sine wave output (THD<3%)
- 2 times high surge power for motor related application
- Advanced digital control by microprocessor
- Output voltage / frequency adjustable
- High efficiency up to 91%
- Conformal coating for TS-700
- Standby saving mode to conserve energy (TS-700)
- Built-in fan ON/OFF control function (TS-400/700)
- Fanless design, cooling by free air convection (TS-200)
- Front panel indicator for load / battery / operation status

- High frequency design
- Input protections:
Bat. low alarm / Bat. low shutdown / Reverse polarity / Over voltage
- Output protections:
Short circuit / Overload / Over temperature
- Applications:
Home appliance, power tools, office and portable equipment, vehicle and yacht...etc.
- 3 years warranty

1000~3000W True Sine Wave

Features

- True sine wave output (THD<3%)
- **2 times high surge power for motor related application**
- Advanced digital control by microprocessor
- High efficiency up to 92%
- **Conformal coating**
- Standby saving mode to conserve energy
- Built-in fan ON/OFF control function
- Output voltage / frequency adjustable
- Front panel indicator for load / battery / operation status

- High frequency design
- Input protections:
Bat. low alarm / Bat. low shutdown / Reverse polarity / Over voltage
- Output protections:
Short circuit / Overload / Over temperature
- Applications:
Home appliance, power tools, office and portable equipment, vehicle and yacht...etc.
- 3 years warranty

TS-3000

466.8x 283.5x 100 mm

Rated output power	1000W	1500W	3000W
Maximum output power	1150W for 3 minutes; 1500W for 10 sec.	1725W for 3 minutes; 2250W for 10 sec.	3450W for 3 minutes; 4500W for 10 sec.
Output surge rating (30 cycles)	2000W	3000W	6000W
DC input rated voltage	12VDC, 24VDC or 48VDC		
AC output voltage	100 / 110 / 115 / 120VAC or 200 / 220 / 230 / 240VAC adjustable via setting button on front panel		
Output frequency	50Hz/60Hz adjustable via setting button on front panel		
AC output waveform	True sine wave, THD<3.0%		
AC output regulation (Typ.)	±3% of rated output voltage		
No load dissipation (Typ.)	≤ 6W @ standby saving mode	≤ 18W @ standby saving mode	≤ 10W @ standby saving mode
Working temperature	0~+60°C		
Safety standards	110V	UL458 approved (except for 48V and only for GFCI receptacle)	
	230V	Compliance to EN60950-1 (LVD)	
EMC standards	110V	Compliance to FCC part 15 class A	
	230V	Compliance to EN55022 class A (class B for TS-1500), E-Mark, EN61000-4-2,3,8

□ = A, B (standard model), C, D, E, F (optional model), G (optional model for TS-3000 only)

► Please refer to page 4 for AC output receptacle list.

► Inverter Remote Controller

IRC series is the monitoring and control unit used for the inverter series. It can decode the RS-232 signal sent by inverter series and display through digital meters.

75x 55x 21mm

Features:

- Wall-mounted and control panel assembly acceptable
- Built-in ON/OFF button
- LED indicators for remote ON/OFF, abnormal and power saving mode
- Equipped with 10FT cable, optional for 25FT or 50FT
- Connect directly to the remote socket of inverter; no power supply needed
- Suitable series:
IRC1: TS-700 / 1000 / 1500 / 3000
TN-1500 / 3000
IRC2: TS-700 / 1000 / 1500 / 3000
IRC3: TN-1500 / 3000
- 3 years warranty

1500~3000W

True Sine Wave with Solar Charger

Features

- True sine wave output (THD<3%)
- 2 times high surge power for motor related application
- Advanced digital control by microprocessor
- High frequency design; high efficiency up to 92%
- Conformal coating
- Standby saving mode to conserve energy
- Built-in fan ON/OFF control function
- Output voltage / frequency adjustable
- Input protections: Bat. low alarm / Bat. low shutdown / Reverse polarity / Over voltage

- Solar input current up to 30A max.
- Output protections: Short circuit / Overload / Over temperature / AC circuit breaker
- Front panel indicator for load / battery / operation status
- Selectable UPS & energy saving mode
- AC by pass / Built-in AC and solar charger
- Fast transfer time under 10ms (Inverter mode $\rightleftharpoons$ Bypass mode)
- Optional monitoring software and connection cable (MW order No.: DS-TN-1500 for TN-1500/3000)

Please refer to www.meanwell.com for detail spec.

Setting Procedure via Front Panel

for TS/TN-1500/3000 Series

Front Panel

Use an insulated stick to press this setting button

Function

Setting Procedure

First Level

UPS and Energy Saving Mode Selection

- Step 1** The inverter should be turned off while resetting, input batteries should be connected. AC main can either be connected or disconnected, and the load should be removed.
- Step 2** Use an insulated stick to press the setting button and then turn on the power switch. After pressing for 5 seconds, the inverter will send out a "Beep" sound. User can release the button and go into the setting procedure.

- Step 3** Please refer to table below and check the LED status to see if the operating mode is the one you need. (Factory setting: UPS mode)

Mode	UPS Mode	Energy Saving Mode
LED Status		
On	○	●
Bat Low	★	★
Saving	★	★

● Light
○ Dark
★ Flashing

- Step 4** The LED will change state by pressing the setting button for 1 second and then release.

Second Level

Output Voltage and Frequency Adjustment

- Step 1** After selecting the operating mode, pressing the setting button for 3~5 seconds and the inverter will send out a "Beep" sound. The button can be released and you can go on to the second section of "voltage / frequency".
- Step 2** Please refer to table below and check the LED status to see if the output voltage / frequency is the one you need (Factory setting: 230VAC/50Hz or 110VAC / 60Hz)

Mode	100VAC (200VAC)	110VAC (220VAC)	115VAC (230VAC)	120VAC (240VAC)
LED Status				
50Hz				
On	●	●	●	●
Bat Low	○	○	●	●
Saving	○	●	○	●
60Hz				
On	★	★	★	★
Bat Low	○	○	●	●
Saving	○	●	○	●

● Light
○ Dark
★ Flashing

- Step 3** The LED will change state by pressing the setting button for 1 second and then release.

Third Level

Saving Mode Selection

- Step 1** After selecting the output voltage and frequency, press the setting button for 5 seconds and the inverter will send out a "Beep" sound. The button can be released and you can go into the setting section for "saving mode".
- Step 2** Please refer to table below and check the LED status. (Factory setting: saving mode OFF)

Mode	ON	OFF
LED Status		
On	★	★
Bat Low	★	★
Saving	●	○

● Light
○ Dark
★ Flashing

- Step 3** The LED will change state by pressing the setting button for 1 second and then release.

- Step 4** Press the setting button for 5 seconds and the inverter will send out a "Beep" sound, the button can be released and all the setting are finished. The inverter will automatically store all the setting and then start to operate.

Note: 1.Descriptions which are highlighted represent functions exclusive to the TN-1500/3000 series.

2.For setting procedure of other product series, please refer to <http://www.meanwell.com/product/inverter/inverter01.html>

Comparison of UPS and Energy Saving Mode

UPS and Energy Saving Block Diagram

Operation Mode	Description & Special Feature	Possible Application
UPS mode	Utility has the highest priority, the TN unit will operate as an UPS system. Utility $\xrightarrow{\text{bypass}}$ load (user's equipment) Utility $\xrightarrow{\text{back-up}}$ battery bank $\rightarrow$ Inverter $\rightarrow$ load (user's equipment) - Area with unstable utility - Better performance as compared to conventional UPS (capable of withstanding heavy load)	- Office: computer system, security system, printer, scanner, fax...etc. - Home: personal computer, refrigerator, lighting...etc. - Telecom sub-station
Energy Saving mode	Solar energy has the highest priority. Utility bill can be reduced since the TN unit acquires energy from the solar panel as higher priority. Solar panel $\rightarrow$ battery bank $\rightarrow$ inverter $\rightarrow$ load (user's equipment) - With additional solar panel. It can be used as individual sub power station (Independent power station) - Area without utility or unstable utility - Cut cost on utility bill	- High altitude location or green building: weather station, lighting, hair dryer...etc. - Yacht: TV, DVD, radio, air conditioner, coffee maker...etc. - Vehicle: mobile phone charger, notebook, electronic pot...etc.

Notice

- Modified sine wave inverter** is a stepped waveform that is designed to have characteristics similar to the sine wave shape of utility power. It is suitable for most household applications, such as notebook, PC, MP3 player, cell phone charger, and digital camera...etc. but may present certain compromises with some loads such as ham radio, microwave oven(with clock), laser printer, motor speed controller, transformer-less charger, and load with high surge demand (capacitance, fluorescent lamp...etc.).
- True sine wave inverter** is suitable for most AC loads, including all electronic equipment of household, motor related application such as electronic drill, linear and switching power supply used in electronic equipment.

Applications

- 1 Solar Panel
- 2 Battery Bank
- 3 Mean Well Solar Inverter (TN Series)
- 4 AC Input (bypass)
- 5 Utility Input

- 1 Utility Input (Shore)
- 2 Mean Well Battery Charger (PB series)
- 3 Battery Bank
- 4 Mean Well Power Inverter (TS series)
- 5 AC Outlet

- 1 Mean Well Battery Charger (PB series)
- 2 Battery Bank
- 3 Mean Well Power Inverter (TS series)
- 4 AC Outlet

Applications:

TV, DVD, notebook, personal computer, lighting, refrigerator, fan, radio, hair dryer, electronic pot, coffee maker, and cell phone charger...etc.
